

Pt-500-O(-PG)

platinumelektrode(-PG)

applications

Waste Water Treatment

Cooling And Boiler Feed Water

Process Water

description

The Kuntze Pt-500-O(-PG) is a single measuring electrode and can be used for ORP measurement.

technical data

measuring parameter

ORP -1500 .. +1500 mV

ambient conditions

max. pressure 0 .. 6 bar at 20 °C
temperature -5 .. +100 °C

mechanical construction

shaft material glass
electrode material 6 mm platinum ring (Pt-600-O)
3 mm platinum ring (Pt-600-O-PG)
mechanical connection S7 plug (Pt-600-O)
S8 screw plug - PG 13,5 (Pt-600-O-PG)
electrical connection 2-pole screw connection

Pt 500-Q(-PG)

platinumelektrode(-PG)
